

TWO WORLDS MEET

small/upscaling	↔	large
renewable	↔	fossil
new/R&D	↔	existing
institute/idealist	↔	multi billion\$ companies
atmospheric	↔	pressurized
efficiency	↔	reliability

OLGA *tar removal*

- complete tar removal
- complete dust removal
- no methane reduction
- tar recycle to gasifier
- no water condensation
- fits many types of gasifiers
- the bridge from biomass-specific to “conventional” gas cleaning!?
